SACN FOR MY PORTFOLIO

OBJECTIVE

Motivated Full Stack Developer with expertise in Core Java, C#, for backend and JavaScript, HTML, and CSS for frontend. Skilled in MySQL, Git/GitHub, and modern development tools. Passionate about building scalable applications and contributing to innovative projects.

SKILLS

- **Backend Development:** Core Java, C# (OOPS, Collections, Generics, Delegates)
- **Frontend Development:** HTML, CSS, JavaScript
- **Database Management:** MySQL
- **Version Control & Deployment:** Git, GitHub
- **Other Tools:** Canva, VS Code, IntelliJ IDEA, Power BI

EDUCATION

- **Bachelor in Computer Science and Engineering**
Government Engineering College Hassan
Presently pursuing in 8th Sem **CGPA: 9.41 (till 7th Sem)**
- **II PUC**
HKS PU College Hassan **99.16% | 2021**
- **10th from CBSE Board**
HKS international School Hassan **90.80% | 2019**

TRAINING AND INTERNSHIPS

- **JAVA Internship - 2022**
Teragon EdTech Hassan
- **Power BI for Data Analytics Training - 2023**
Vodafone Idea Foundation
- **Entrepreneurship Development Internship - 2023**
Seventh Sense Talent Solutions
- **Applied Artificial Intelligence: Practical Implementations - 2024**
Training in Advanced Applied Artificial Intelligence (Practical Implementations) under the Edunet Foundation's TechSaksham Program (TSP), a joint CSR initiative by Microsoft and SAP
- **Pentagon Space Bengaluru - 2025**
Training and Internship on Java
- **Datalyzer International - (Ongoing)**
Position: Software Engineer Trainee
Training on C# , Angular JS, ASP.NET Core Web API

PROJECTS

- **Real Time White Board**

Duration: 1 Month

Team Size: 4

Technologies: HTML, CSS, JavaScript, Canvas API, Node.js, Socket.io

Role: Focused on implementing the Canvas drawing logic, managing real-time data flow using Socket.io, and enhancing the user interface for an intuitive drawing experience.

Description: Developed a real-time multi-user drawing platform that enables seamless collaboration using the Canvas API. Integrated Node.js and Socket.io for efficient real-time synchronization and communication between clients, ensuring smooth and responsive drawing interactions.

- **AirTouch: Gesture and Voice command interface for PC's**

Duration: 1 Month

Team Size: 4

Technologies: Python, MediaPipe, OpenCV, PyAutoGUI, SpeechRecognition, Text-to-Speech

Role: Worked on implementing hand gesture detection using MediaPipe, integrating PyAutoGUI for cursor control, and developing the chatbot feature for enhanced user interaction.

Description: Developed a gesture-controlled virtual mouse that enables cursor control through hand gestures using MediaPipe and OpenCV. Integrated a real-time chatbot powered by SpeechRecognition for voice input and Text-to-Speech for responses, ensuring seamless human-computer interaction.

- **Production Efficiency Tracker (PET)** **Console Based**

Duration: 2 Weeks

Team Size: 1

Technologies: C#(Console Based)

Description: It helps a factory or company track how efficiently products are being made during each shift, per machine, or per operator.

It focuses on:

- How many good units are made
- How many defective units are produced
- Time taken for production
- Which machine/shift produced them

ADDITIONAL INFORMATION

- **Languages:** English, Kannada
- **Activities:**
 - 1.Active Volunteer of National Service Scheme
 - 2.Student Editor of College Magazine Annaya 2022-24 (released)
 - 3.Vice president of Compass (Computer Science Student Association)
 - 4.Computer Science Branch Coordinator of (BIS-Bureau of Indian Standard) in GECH
 - 5.Selected for TechForSociety Hackthon(All India Level) MVP phase out of 50 teams
